

Gigaset Transferring

Below is a guide to perform two different types of transfers. The first is to transfer to another handset on the same base station. The second is to transfer to another extension on your Montec Connect account or an external number.

Internal Base Transfer:

1. When on a call, the Gigaset phone should look like this. Click the 'INT' button.

2. Answer the call on the second handset.

3. Press 'Conf.' on the first handset.

4. Press the 'End Call' button on first handset.

5. The call should now be on the second handset.

External Transfer:

1. When on a call, the Gigaset phone should look like this. Press the 'R' button

2. Type the Extension Number (or phone number) you want to Transfer to.

3. Once the third party answers press the 'R' once again.

4. The Gigaset handset will transfer the call.
